

Operators, Update, Delete, Count & Cursor Methods

Operators

1. Find all products whose price is greater than ₹500.

```
db.products.find({ price: { $gt: 500 } })
```

2. Find all products whose price is less than ₹300.

```
db.products.find({ price: { $lt: 699 } })
```

3. Find all products whose price is exactly ₹699.

```
db.products.find({ price: { $eq: 699 } })
```

4. Find all products whose price is not equal to ₹499.

```
db.products.find({ price: { $ne: 499 } })
```

5. Find products whose price is between ₹200 and ₹1000.

```
db.products.find({ price: { $gt: 200, $lt: 1000 } })
```

6. Find all products whose stock is greater than 20.

```
db.products.find({ stock: { $gt: 20 } })
```

7. Find all products whose stock is less than or equal to 15.

```
db.products.find({
  $or: [
    { stock: { $lt: 15 } },
    { stock: 15 }
  ]
})
```

8. Find all Electronics products whose price is greater than ₹500.

```
db.products.find({
  price: { $gt: 500 }
})
```

Logical Operators

9. Find products where:

- Price is greater than ₹500
- AND stock is less than or equal to 20

```
db.products.find({
```

```
  price: { $gt: 500 },
```

```
  stock: { $lte: 20 }
```

```
})
```

10. Find products where:

- Price is greater than ₹1000
- OR stock is equal to 30

```
db.products.find({
```

```
  $or: [
```

```
    { price: { $gt: 1000 } },
```

```
    { stock: 30 }
```

```
  ]
```

```
})
```

11. Find products where:

- Category is "Accessories"
- AND stock is greater than 20

```
db.products.find({
```

```
  category: 'Accessories',
```

```
  stock: { $gt: 20 }
```

```
})
```

12. Find products where:

- Price is less than ₹100
- OR stock is less than 10

```
db.products.find({$or:[{price:{$lt:100}},{stock:{$lt:10}}]})
```

Update Operations

13. Update the stock of "Laptop" to 25.

```
db.product.updateOne({name:'Laptop'},{$set:{stock:25}})
```

14. Update the price of "Phone" to 799.

```
db.product.updateOne({name:'Phone'},{$set:{price:799}})
```

15. Update the stock to 50 for all products whose price is less than ₹300.

```
db.products.updateMany({price:{$lt:300}},{$set:{stock:50}})
```

Delete Operations

16. Delete the product named "Tablet".

```
db.products.deleteOne({product:'Tablet'})
```

17. Delete all products whose price is less than ₹100.

```
db.products.deleteMany({price:{$lt:100}})
```

Count Documents

18. Count the total number of products.

```
db.products.countDocuments ( )
```

19. Count the number of products whose price is greater than ₹500.

```
db.products.count({price:{$lt:500}})
```

Cursor Methods

20. Display products sorted by price from highest to lowest and show only the top 3 products.

```
db.products.find().sort({ price: -1 }).limit(3)
```
